INCREASE

Respectfully Submitted to: City Manager Suja Lowenthal

Approved by: Acting Chief Milton McKinnon

Prepared by: Xochitl Escutia

As in all statistical comparisons, caution should be exercised in interpreting percent changes. When smaller numbers are compared the result is a greater percentage change; in other words, a more dramatic result is achieved.

\*Due to change in reporting processes there may be a variation in previously reported statistics

N.C. Not Calculable. To calculate the percentage change you use  $\text{Time 1} - \text{Time 2} / \text{Time 2} = \text{a number} \times 100 = \text{Percentage change}$ . You cannot divide any number by 0 and receive a valid number
