Cars | Vans | Campers/RVs | Tents | Makeshift shelters

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population's demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.
