Notification of Sewer Lining

Dear Resident and Community Members:

The City of Hermosa Beach has contracted with Nu-Line Technologies to perform sewer lining throughout the City. During this phase of the project, sewer lining work will take place near your property. Nu-Line Technologies will setup no parking signs, and a temporary traffic control to perform the sewer work.

What to Expect:

During the work, residents may detect an odor from the sewer lining. The odor is not toxic and will naturally dissipate in a few hours.

If you experience any problems during the construction, relating to your sewer service, please call Nu-Line Technologies Field Supervisor Jorge Beltran at 760-419-4315. For additional information please contact Construction Manager Scott Giannini at 661-369-2826 or Andrew Nguyen Project Manager at 310-318-0212. Thank you in advance for your cooperation and patience.

Remember to always be careful when driving or walking through or near a construction area. Thank you in advance for your patience and cooperation in improving The City of Hermosa Beach!

Project: CIP 416 Sewer Improvements Phase 2
