City of Hermosa Beach COVID-19 Work Site Protocol Agreement

To reduce the spread of COVID-19 and maintain the essential functions of construction within the public right-of-way, necessary precautions need to be taken to maintain the safety of workers and the public. The below protocols shall be followed when working in the City of Hermosa Beach:

1. Personal Protective Equipment (PPE) must be worn at all times. This includes gloves, goggles, face shields and face masks. PPE must be properly fitted, with masks covering both the nose and mouth.
2. When feasible, workers must social distance by maintaining six feet of separation amongst themselves and the public.
3. Workers must practice personal hygiene. If a wash station is available, it's recommended that workers wash their hands often with soap and water, especially after coughing and sneezing.
4. Tools and toolboxes must always be kept clean and should not be shared with others.
5. Workers will refrain from entering a job site if they or a member of their household are experiencing a respiratory illness, including fever and cough.

I, _____ acknowledge that I have read and understand the **City of Hermosa Beach COVID-19 Work Site Protocol Agreement**. I will ensure that my company and its crew members, along with any subcontractors/material delivery companies associated with the project, will abide by the recommended practices for social distancing and proper use of PPE presented above.

I understand that our failure to adhere to the requirements for maintaining a safe working environment for ourselves and the public could result in the issuance of a "Stop Work" notice. Further lack of compliance could also result in additional sanctions, which are to be reviewed by the Public Works Department and its Director.
