

1 leasing to new areas which have been largely off-limits to new federal leasing, including the Pacific  
2 Coast and the U.S. Arctic; and;

3 **WHEREAS**, the City of Hermosa Beach is opposed to inclusion of any offshore drilling tracts  
4 in any OCS Planning Area on the Pacific Coast in the pending revised 2019-2024 Draft Proposed  
5 Program and any other future National Programs, and;

6 **WHEREAS**, the U.S. Department of Interior has failed to comply with the National  
7 Environmental Policy Act (NEPA), the Coastal Zone Management Act (CZMA), the Outer Continental  
8 Shelf Lands Act (OCSLA), and relevant local land use provisions in considering said Draft Proposed  
9 Program (DPP), and further, has failed to conduct and heed the duly-required consultations with  
10 affected governors, local governments, tribes, and other stakeholders as required under existing law;  
11 and

12 **WHEREAS**, offshore oil and gas drilling and exploration off the Pacific Coast puts these  
13 coastal resources, and the communities and industries that depend on them, at risk from oil spills and  
14 other damage; and,

15 **WHEREAS**, a massive oil spill in 1969 off the coast of Santa Barbara resulting from offshore  
16 oil drilling operations fouled coastal waters and caused catastrophic economic and environmental  
17 damage; and,

18 **WHEREAS**, in May 2015 a pipeline transporting oil sourced from offshore oil platforms  
19 ruptured near Refugio State Beach in Santa Barbara County and spilled oil into the Pacific Ocean with  
20 oil and tar balls reaching as far south as Orange County, including Hermosa Beach, damaging wildlife,  
21 closing beaches, and impacting recreational and commercial activities; and,

22 **WHEREAS**, Contrary to the Executive Order, California and State Commissions continue to  
23 pioneer clean, renewable energy, recognizing that instead of prioritizing new oil and gas development,  
24 the Nation can thrive by championing renewable energy, which creates, jobs, bolsters the economy,  
25 and protects the coastline, resources, and marine wildlife from a catastrophic oil spill; and

26 **WHEREAS**, California has spent decades laying a foundation for the green economy and  
27 renewable energy, including establishing targets to increase retail sales of renewable electricity to 50  
28 percent by 2030, and doubling the energy efficiency savings in electricity and natural gas end uses by

1 2030; and

2       **WHEREAS**, California leads the nation in reducing carbon pollution and recently enacted  
3 legislation requiring statewide greenhouse gas emissions to be 40 percent below the 1990 level by  
4 2030; and

5       **WHEREAS**, opening new areas off the Pacific coast to offshore drilling will deepen the state’s  
6 dependence on fossil fuels and undermine its efforts to address climate change by reducing greenhouse  
7 gas emissions and moving toward renewable energy; and,

8       **WHEREAS**, Governor Edmund G. Brown Jr’s Executive Order B-30-15 acknowledges the  
9 threat of climate change to the health and well-being of humans and natural resources, highlights  
10 California’s efforts to achieve significant emission reductions by 2050, and directs State government  
11 to implement Safeguarding California, California’s climate adaptation plan; and

12       **WHEREAS**, shifting away from fossil fuel dependency and increasing the State’s renewable  
13 energy portfolio is a key strategy to fight climate change and reduce greenhouse gas emissions; and

14       **WHEREAS**, action to combat climate change works in concert with economic growth, and as  
15 California has shown, renewable energy creates more jobs per megawatt of power installed, per unit of  
16 energy produced, and per dollar of investment compared to energy production from fossil fuels; and

17       **WHEREAS**, California is a founding member of the International Alliance to Combat Ocean  
18 Acidification, which brings governmental and affiliate members together to identify, coordinate, and  
19 expand meaningful and timely actions to combat ocean acidification and limit other climate change-  
20 driven changes to the world’s oceans, and the Alliance highlights the urgency of reducing greenhouse  
21 emissions and other causes of ocean acidification as well as implementing actions to adapt to and raise  
22 awareness of climate change-driven changes to the ocean; and

23       **WHEREAS**, California has made significant social and financial investments to create the  
24 nation’s first science-based network of marine protected areas to protect marine life and habitats for  
25 current and future generations, and covering 16 percent of state waters, California’s network safeguards  
26 ecosystems and economic activities that rely on a healthy ocean—including tourism and commercial  
27 fishing—and supports the state’s thriving \$44 billion ocean economy; and

28       **WHEREAS**, the Implementing an America-First Offshore Energy Strategy Executive Order

1 requires the Secretary of Commerce to review a 2016 National Oceanic and Atmospheric  
2 Administration guidance document that assesses the effects of anthropogenic sound on marine  
3 mammal hearing for consistency with the Order’s policy of encouraging oil and gas development, and  
4 rescind or revise this guidance if appropriate; and

5 **WHEREAS**, sound, and marine mammals, know no political boundaries—activities occurring  
6 beyond California’s three-mile boundary in federal waters can influence and impact protected marine  
7 mammal species that use State waters to feed, breed, and migrate, and this Order may undermine  
8 federal and state protections and expose marine mammals to injurious noise levels that could have  
9 population-level impacts; and

10 **WHEREAS**, the City of Hermosa Beach rejects the premise that encouraging energy  
11 exploration and production on the OCS is necessary to maintain the Nation's position as a global energy  
12 leader and foster energy security and resilience for the benefit of the American people; and

13 **WHEREAS**, new federal offshore oil and gas leases have not been granted off the coast of  
14 California since 1984; and,

15 **WHEREAS**, the state of California prohibited new oil and gas leasing in state waters due to  
16 the unacceptably high risk of damage and disruption to the marine environment; and,

17 **WHEREAS**, the Governor of California, the Attorney General, the State Senate and Assembly,  
18 the California State Lands Commission, Coastal Commission, Fish and Game Commission, along with  
19 over 70 California cities and counties, have taken a stand against new federal offshore oil and gas leases  
20 in the Pacific Ocean; and,

21 **WHEREAS**, the City of Hermosa Beach adopted PLAN Hermosa in 2017, the City's first  
22 general plan update since 1979 that presents a 25-year vision for a Sustainable and Low Carbon Future  
23 for Hermosa Beach; and,

24 **WHEREAS**, on January 23, 2018, the City Council of the City of Hermosa Beach approved a  
25 letter of support for State Assembly Bill 1775 and Senate Bill 834, thereafter signed into law on  
26 September 9, 2018 by Governor Edmund G. Brown Jr, to prohibit the State Lands Commission and  
27 local trustees from entering into new lease agreements for exploration or production of oil or gas in  
28 state regulated coastal waters, up to three miles from the coastline.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF HERMOSA BEACH,  
CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:**

That the City of Hermosa Beach:

- 1. Opposes new leases for oil and gas activities off the coast of California and in all other U.S. waters.
- 2. Supports a ban on new offshore oil and gas drilling, fracking, and related techniques in federal and state waters off the California coast.
- 3. The City Clerk is hereby directed to transmit a copy of this Resolution to Secretary of the Interior David Bernhardt, Bureau of Ocean Energy Management Acting Director Walter Cruickshank, Governor Gavin Newsom, U.S. Senators Dianne Feinstein and Kamala Harris; U.S. Representative Ted Lieu, State Senator Ben Allen, State Assemblymember Al Muratsuchi and any other interested parties.

VOTE: AYES:

NOES:

ABSTAIN:

ABSENT:

**PASSED, APPROVED and ADOPTED** this 23rd day of April, 2019.
