ARGUMENT AND REBUTTAL FORM – TO BE SIGNED BY ALL AUTHORS

Arguments shall be submitted on this form (see "Word Count Standards"), along with the printed name and signature of each author (EC 9283 and 9285), in the order in which they are to appear in the voter pamphlet. Each argument must be accompanied by a "Statement To Be Filed By Authors of Arguments" (EC 9600).

Measure O opponents use myths and deceptive language instead of scientific facts because they know that the facts clearly show this onshore project to be safe and clean.

FACT: The City's Independent Health Impact Assessment, written by unbiased scientists and doctors, found this project will have no substantial effect on the health of our community.

FACT: Oil wells have existed for decades next to Cedars Sinai Hospital, in the middle of residential neighborhoods in Newport Beach, Huntington Beach and on the Beverly Hills High School campus. In fact, property values in these areas have continued to rise.

FACT: The Environmental Impact Report states that this project will have more safeguards and protections than required by Federal and State law.

FACT: Safe, onshore, underground directional drilling means no offshore platforms and no activity in or near the ocean.

FACT: The EIR states that the chance of any oil escaping the site and reaching the ocean is a once in 6,421,148 year event.

FACT: The EIR concludes that the project does not create health risks from air pollutants.

Hundreds of oil wells operate in residential neighborhoods throughout Southern California that are denser or are closer to the ocean than this project. And most cities don't benefit from over \$500 million in new revenue that Hermosa Beach could receive from the project.

When you Vote Yes on Measure O, you are voting to follow through on the deal that saved our City from bankruptcy.

Join us in voting Yes on Measure O.
